NAZWA FAKULTETU	WYK	ĆW	SEM	ZAJ PRAK	LAB	OGÓŁEM	ECTS
„Home alone” – junior doctor home visit		5	10			15	1
„Who is to blame? Socio-medical side of suicides”		10	5			15	1
3D printing in medicine - application and manufacturing methods		6	9			15	1
A child is not just a small adult		15				15	1
ABCs of good conversation on difficult topics with patients and their relatives		15				15	1
Acute Alcohol Poisoning – Biochemical and Clinical Aspects. Drug Interactions. Extracorporeal Toxin Removal Techniques.		3	12			15	1
Acute and chronic pain - pathophysiology, clinical evaluation, treatment		3	12			15	1
Ageing - curse or adaptation?		5	10			15	1
Allergology in practice		30				30	2
Allergology: clinical cases - theory - practice			15			15	1
Anaesthesia Journal Club - critical appraisal of scientific articles		7	8			15	1
Anatomical dissections	2	13				15	1
Andrology			15			15	1
Anti-EBM science based on lies		5	10			15	1
Automatic External Defibrillation		15				15	1
Balance and stabilization using big balls		15				15	1
Basic Latin and Medical Terminology		30				30	2
Basic Medical Endocrinology	15					15	1
Basic procedures in oral surgery		15				15	1
Basics of physics for students of medicine	15					15	1
Biochemical basis of hormonal disorders	15					15	1
Biochemistry of Cancer	15					15	1
Can freshmen spot a clinical diagnosis?	30					30	2
Cardio Aerobic - excercises strengthening cardiovascular system		15				15	1
Cardiologist in Nephrological department - analysis of cases		15				15	1
Cardiologist in oncological department		15				15	1
Cardio-vascular endocrinology			15			15	1
Cardiovascular imaging methods		15				15	1
Cell therapies in regenerative medicine			15			15	1
Child abused and neglected		5	10			15	1
Circulatory shock - multidisciplinary approach			30			30	2
Close a window towards before ghosts. Superstitions in medical practices.		10	5			15	1
Communication between medical doctors and dentists when preparing patients for surgical procedures		15				15	1
Contemporary cardiology and beyond		15				15	1
Countering the tobacco industry		5	10			15	1
COVID-19 and endocrine and metabolic disorders			15			15	1
Current Foot and Ankle Surgery		15				15	1
Dancing - best to rest and distress		15				15	1
Depression, burnout and quality of life		15				15	1
Diabetes in pregnancy and endocrine disorders		15				15	1
Drug delivery systems	6	3	6			15	1
Echocardiography - interesting cases		15				15	1
Echocardiography and sonography of carotid vessels in everyday practice		15				15	1
Echocardiography in emergency		15				15	1
Effective Physical Recreation		15				15	1
E-learning in medical education		15				15	1
Electrocardiography for English Students		15	0			15	1
Elements of sports medicine		10	5			15	1
Environmental Epidemiology		10	5			15	1
Exercises sharpening the body, building muscles, helping to reduce fat tissue - superfigure		15				15	1
Famous anatomists			15			15	1
Fiction vs. Reality - bioethical issues in literature and movies			15			15	1
Food additives - health aspects		15				15	1
Food and drugs together-risky or safe menu?			15			15	1
Free radicals and biochemistry of disease			15			15	1
Functional Neuroimaging (neuromarketing, gambling, addictions)			15			15	1
Futile surgery - end of life dilemmas in the clinical practice of a surgical department			15			15	1
Genetic analysis in kinship testing and assessment of biogeographic ancestry		15				15	1
Health care for all or for no one?			15			15	1
Health economics – how much does it cost to be ill?			15			15	1
Healthy lifestyle - health necessity or snobishness		10	5			15	1
High altitude and expedition medicine			15			15	1
How to Establish a Good Contact With a Surgical Patient		30	0			30	2

How to prepare and accomplish health promotion programme?		10	5			15	1
Human gut microbiota - study techniques, role in pathophysiology of selected diseases and new therapeutic approaches		5	10			15	1
Immunological mechanisms and civilisational dangers	5		10			15	1
Immunology of reproduction and developmental age			15			15	1
Interval workout		15				15	1
Introduction to cancer cytobiology		15				15	1
Introduction to regenerative medicine		15				15	1
Introductory course for step 1 USMLE		15	45			60	4
Invasive and non-invasive hemodynamic monitoring in critically ill patients		5	10			15	1
Laser in oral surgery		15				15	1
Latin and English anatomical terminology		30				30	2
Main USMLE1 preparatory course for step 1		14	1			15	1
Mechanisms and pathophysiological consequences of the most dangerous weight-losing methods		15				15	1
Mechanisms of eating disorders and adverse food reactions; how gut and other microbiota affect human pathophysiology		15				15	1
Mental hygiene			15			15	1
Methods in biomedical science with focus on laboratory medicine: from blood work results to diagnosis		15				15	1
Microscopic differential diagnosis of normal and pathological cells and tissues		15				15	1
Microsurgical Techniques in Orthopaedics		15				15	1
Mock USMLE1 exams		14	1			15	1
Modern Hand Surgery		15				15	1
Molecular basis of carbohydrate metabolism associated diseases	15					15	1
Molecular basis of human disease: body weight & dysmorphic disorders and their biochemical consequences.	15					15	1
Multicultural and social dimensions of homosexuality. Public health perspective			15			15	1
Music therapy and psychology of music			15			15	1
New Patients Paths, or how to connect the health area with other sectors			15			15	1
New technologies in the monitoring of health behavior			15			15	1
Non-medical activity for health		10	5			15	1
Nordic Walking - way to great shape		15				15	1
Nuclear Medicine - Advances in imaging and therapy - PET/SPECT, image fusion, molecular imaging		3	12			15	1
Nutrition for children and adolescents practicing in sports			15			15	1
Nutrition in autoimmune diseases - facts and myths		10	5			15	1
Nutrition of women during pregnancy and lactation. Nutrition of healthy and ill children.		15				15	1
Oncological endocrinology			15			15	1
Orthopaedics and traumatology of locomotor system		15				15	1
Pain, the brain and cognition			15			15	1
Pathologies and injuries of the spine in children and adolescents		15				15	1
Pathophysiology - Master Class		15				15	1
Pathophysiology bases of understanding the rare, strange and zoonotic diseases		15				15	1
Pathophysiology in action - from case to understanding		15				15	1
Pathophysiology of immunodeficiencies and autoimmune diseases		15				15	1
Pediatric dermatologic surgery and laser therapy		15				15	1
Pediatric orthopedics problems.		15				15	1
Pediatrics preparation course		15				15	1
Poland. Country - culture - history		30				30	2
Polish Clinical Terminology in Hospital Training		30				30	2
Polish Grammar Review		30				30	2
Polish Up Your Polish		30				30	2
Practical and theoretical aspects of diagnostics and therapy in Oncological Surgery		10	5			15	1
Practical and theoretical basis of surgical techniques in paediatric surgery		15				15	1
Practical aspects of physiology - introduction to clinical medicine		15				15	1
Practice Makes Perfection (ED) - Laparoscopic Skills		30				30	2
Practice Makes Progress - Classic Surgical Skills		30				30	2
PRF use in oral surgery		15				15	1
Principles of Evidence Based Medicine	6	9				15	1
Pro-health functional training		15				15	1
Sarcoidosis as a multiorgan disease		15				15	1
Savoir-vivre - how a bit of culture favors reaching the goal	5	5	5			15	1
Slimming exercises - way of fighting obesity		15				15	1
Soft tissue injuries within head and neck region - diagnostics and management		15				15	1
Specific problems in child neurology		15				15	1

Stem cells in medicine			15			15	1
Step and shape		15				15	1
Surgery - Guidelines for Greenhorns (ED)			15			15	1
Surgical treatment and innovative cell therapies in oncology			15			15	1
Telemedicine	3	12				15	1
The Basics of Medical Massage		12	3			15	1
The doctor's role in battlefield medicine - legal regulations		15				15	1
The point-of-care laboratory in small medical practice		9	6			15	1
The role of vitamin D in health and disease		15				15	1
Tissue engineering and personalized medicine			15			15	1
Travel medicine			15			15	1
Two faces of marijuana		15				15	1
Ultrasound examination of the thyroid and parathyroid glands.		15				15	1
Ultrasound in critical care medicine		7	8			15	1
Ultrasound in regional anesthesia		7	8			15	1
Vegetarianism. Vegan. Alternative diets.		15				15	1
What do the numbers say - Introduction to Biostatistic	8	7				15	1
