

Nazwa przedmiotu z listy dopuszczonych fakultetów	wykłady	seminaria	ćwiczenia	laboratoria	zajęcia praktyczne	ogółem	ECTS
„Who is to blame? Socio-medical side of suicides”		5	10			15	1
3D printing in medicine		15				15	1
A child is not just a small adult			15			15	1
Acute Alcohol Poisoning – Biochemical and Clinical Aspects. Drug Interactions. Extracorporeal Toxin Removal Techniques		12	3			15	1
Acute and chronic pain - pathophysiology, clinical evaluation, treatment		12			3	15	1
Allergology in practice					30	30	2
Allergology: clinical cases - theory - practice		15				15	1
Anaesthesia Journal Club - critical appraisal of scientific articles		8	7			15	1
Anatomical dissections	2		13			15	1
Applying neuroscience to mental disorder		15				15	1
Automatic External Defibrillation					15	15	1
Basic Latin and Medical Terminology			30			30	2
Biochemical basis of hormonal disorders	15					15	1
Biochemistry of Cancer	15					15	1
Biological rhythms and civilisation diseases			15			15	1
Cardiologist in Nephrological department - analysis of cases			15			15	1
Cardiologist in oncological department			15			15	1
Cardio-vascular endocrinology		15				15	1
Cardiovascular imaging methods			15			15	1
Circulatory shock - multidisciplinary approach		30				30	2
Clinical and forensic toxicology and basis of preparation of medico-legal opinions	6		9			15	1
Close a window towards before ghosts. Superstitions in medical practices		5	10			15	1
Contemporary cardiology and beyond					15	15	1
Countering the tobacco industry		10	5			15	1
COVID-19 and endocrine and metabolic disorders		15				15	1
Current Foot and Ankle Surgery					15	15	1
Dancing - best to rest and distress			15			15	1
Depression, burnout and quality of life			15			15	1
Destino Erasmus, Destination Erasmus			15			15	1
Diabetes in pregnancy and endocrine disorders			15			15	1
Drug interactions with food, dietary supplements and alcohol	5	10				15	1
Echocardiography - interesting cases			15			15	1
Echocardiography in emergency			15			15	1
E-learning in medical education			15			15	1
Electrocardiography for English Students		0	15			15	1
Environmental Epidemiology		5	10			15	1
Famous anatomists		15				15	1
Famous patients in the history and art		15				15	1
Food additives - health aspects			15			15	1
Functional Neuroimaging (neuromarketing, gambling, addictions)		15				15	1
Futile surgery - end of life dilemmas in the clinical practice of a surgical department		15				15	1
Health economics – how much does it cost to be ill?		15				15	1
Healthy lifestyle - health necessity or snobishness		5	10			15	1
How to Establish a Good Contact With a Surgical Patient		0	30			30	2
How to manage a patient with cognitive impairment?			15			15	1
Immunological mechanisms and civilisational dangers	5	10				15	1
Impact of genomics and transcriptomics development on disease diagnostics		5	10			15	1
Interval workout (Interval training)			15			15	1
Introduction to cancer cytobiology			15			15	1
Introduction to regenerative medicine			15			15	1
Introductory course for step 1 USMLE		1	14			15	1
Latin and English anatomical terminology			30			30	2
Legal defense of a doctor in court litigation		15				15	1
Main USMLE1 preparatory course for step 1		45	15			60	4
Marketing activities in health-allowed or prohibited	5	10				15	1
Mechanisms and pathophysiological consequences of the most dangerous weight-losing methods			15			15	1
Mechanisms of eating disorders and adverse food reactions; how gut and other microbiota affect human pathophysiology			15			15	1
Methodology of diagnostic tests, screening and questionnaires in medicine			15			15	1

Methods in biomedical science with focus on laboratory medicine: from blood work results to diagnosis			15			15	1
Methods in biomedical science with focus on laboratory medicine: from blood work results to diagnosis (case studies)		15				15	1
Microsurgical Techniques in Orthopaedics					15	15	1
Mock USMLE1 exams		1	14			15	1
Modern Hand Surgery					15	15	1
Molecular anthropology and forensic genetics	3		12			15	1
Molecular basis of human disease: body weight & dysmorphic disorders and their biochemical consequences	15					15	1
Multicultural and social dimensions of homosexuality. Public health perspective		15				15	1
Music therapy and psychology of music		15				15	1
Neuromodulation techniques - physiological and pathophysiological mechanisms and clinical aspects			15			15	1
Nordic Walking - way to great shape			15			15	1
Nutrition of women during pregnancy and lactation. Nutrition of healthy and ill children			15			15	1
Oncological endocrinology		15				15	1
Orthopaedics and traumatology of locomotor system					15	15	1
Pain, the brain and cognition		15				15	1
Pathologies and injuries of the spine in children and adolescents					15	15	1
Pathophysiology - Master Class			15			15	1
Pathophysiology bases of understanding the rare, strange and zoonotic diseases			15			15	1
Pathophysiology in action - from case to understanding			15			15	1
Pediatric dermatologic surgery and laser therapy			15			15	1
Pediatric orthopedics problems					15	15	1
Poland. Country - culture - history			30			30	2
Polish Clinical Terminology in Hospital Training			30			30	2
Polish Grammar Review			30			30	2
Polish Up Your Polish			30			30	2
Practical and theoretical basis of surgical techniques in paediatric surgery					15	15	1
Practical dissection exercises during forensic autopsies	3		12			15	1
Practice Makes Perfection (ED) - Laparoscopic Skills			30			30	2
Practice Makes Progress - Classic Surgical Skills			30			30	2
Principles of Evidence Based Medicine	6		9			15	1
Psychiatry of people between 3 and 103 years - mental disorders throughout life			15			15	1
Sarcoidosis as a multiorgan disease					15	15	1
Savoir-vivre - how a bit of culture favors reaching the goal	5	5	5			15	1
Social media in health care-how to promote health skillfully on a large scale	5	10				15	1
Stem cells in medicine		15				15	1
Tablets and capsules - what should physician know about dosage forms?	5	10				15	1
Telemedicine	3		12			15	1
The Basics of Medical Massage		3	12			15	1
The philosophy of "Evidence Based Medicine" - the modern paradigm of medical science			15			15	1
The point-of-care laboratory in small medical practice		6	9			15	1
The point-of-care laboratory in small medical practice		9	6			15	1
The role of modern and classical laboratory tests in medical practice		5	10			15	1
The role of vitamin D in health and disease			15			15	1
Therapies of the future		15				15	1
Vegetarianism. Vegan. Alternative diets			15			15	1
What do the numbers say - Introduction to Biostatistic	8		7			15	1
Your patient's cognitive function - why, when and how to assess?			15			15	1
